BIRD STOP™

VISUAL AND OLFACTORY BIRD REPELLENT

ACTIVE CONSTITUENTS: 30 g/kg PEPPERMINT OIL
50 g/kg WHITE PEPPER

For the deterrence of birds (including feral pigeons, starlings, barn swallows and common myna) in commercial, industrial, rural and residential situations.

Contains no polybutene

Contents **250 g**

DIRECTIONS FOR USE:

SITUATION

Commercial, Industrial, Rural and Residential Buildings.

PEST

Pest bird species including feral pigeons, starlings, barn swallows and common myna. Do not place within 2 metres of nests containing eggs or young birds of protected bird species.

PREPARATION

Product is to be installed in accordance with the Protect-us BIRD STOP program that can be accessed through www.protect-us.com.au. When working at height, product should be installed by appropriately trained persons using required safety equipment. Ensure appropriate personal protective equipment is used when preparing the site.

Remove all vacant nests and other related debris. For effective application of Protect-us BIRD STOP all surfaces within the installation area must be thoroughly cleaned and free from faecal and organic matter. Enhanced efficacy will be gained by treating the cleaned areas with a fine mist spray of an alkaline disinfectant (e.g. GUANAWAY™). Do not over-wet as this will lengthen drying time and inhibit adhesion of silicone sealants. Protect-us BIRD STOP will only be completely effective if the site is properly cleaned before installation.

APPLICATION

Cut off cartridge seal, cut nozzle to provide for a 10 mm hole and apply 15 – 17 g of Protect-us BIRD STOP into an Protect-us BIRD STOP Dish (as supplied by Protect-us).

Secure Protect-us BIRD STOP Dishes to surfaces using either a quality silicone sealant or Protect-us BIRD STOP magnets or clips, and space as follows:

High pressure roosting and nesting areas	15 – 20 cm spacings
Medium pressure areas	20 – 30 cm spacings
Low pressure areas	30 – 50 cm spacings

Repeat cleaning process and replace Protect-us BIRD STOP Dishes if birds return to treated site.

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL
UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION**

PRECAUTIONS

Do use in areas accessible to children. Avoid contact with food, food utensils, or places where food is prepared or stored.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the product or used containers.

STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN. Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight. Dispose of empty packaging and used repellent containers by wrapping in paper, placing in plastic bag and putting in garbage.

FIRST AID

If poisoning occurs, contact a Doctor or Poisons Information Centre. Phone: Australia 13 11 26; New Zealand 0800 764 766.

SAFETY DATA SHEET

Additional information is listed in the Safety Data Sheet which is available from Protect-us on request. Call Customer Service 1800 420 144 or visit our web site at www.protect-us.com.au.
