

# Goodnature E2 Trap

## Technical Specifications

<b>Number of kills</b>	Approx. 24 from one CO <sub>2</sub> Gold-standard Canister. The exact number will depend upon environmental factors.	
<b>Operating Range</b>	Rugged design for use in the most extreme conditions. It is high altitude and sea spray resistant.	
<b>Temperature range</b>	-20 Celsius to 50+ Celsius.	
<b>Weight</b>	approx. 600 g	
<b>Pack size</b>	220 x 150 x 80 mm	
<b>Natural Rodent Lure</b>	Naturally derived Lure releases attractant constantly for 6 months. We recommend a monthly service visit to freshen the lure.	
<b>Materials</b>	<p>Glass re-inforced polymer striker.</p> <p>Injection moulded Nylon 6 with UV stabiliser.</p> <p>Internal seals in Nitrile, Ethylene Propylene Diene Monomer, Silicone and Polyurethane.</p> <p>Stainless steel 303 – corrosion resistant.</p>	<p>Brass 352 – Marine Grade Brass.</p> <p>The trap is designed to protect its critical components from the rain and weather. The outer components are UV stabilised to counter deterioration when placed in direct sunlight.</p>
<b>CO<sub>2</sub> Cannister</b>	<p>Gold-standard CO<sub>2</sub> Canister has high purity CO<sub>2</sub> content and low residual oil content to ensure security of the seals in the E2.</p> <p>NB The use of non-approved CO<sub>2</sub> canisters will void your warranty.</p>	
<b>Humane Kill</b>	The E2 provides instant kill to the target species and has undertaken independent humane evaluation to deliver on the NZ MAF National Animal Welfare Advisory Guidelines (NAWAC) and it meets the Class A Standard (highest Standard).	
<b>E2 Placement</b>	<p>In wildlife conservation programs and agricultural situations, placement in a 50 m x 100 m grid is recommended, following the contours of the land.</p> <p>For use in the urban environment placement at 10 m intervals for mice and 20 m – 30 m for rats is recommended, with placement in areas where non-target species are less likely to gain access.</p>	
<b>Where to use</b>	<ul style="list-style-type: none"> <li>✓ Backyards</li> <li>✓ Subfloors</li> <li>✓ Roof voids</li> <li>✓ Outside factories, warehouse</li> <li>✓ Around farm buildings</li> <li>✓ Around perimeter fencelines</li> </ul>	<ul style="list-style-type: none"> <li>✓ Conservation programs</li> <li>✓ Zoos</li> <li>✓ Feedlots</li> <li>✓ Animal husbandry</li> <li>✓ Grain Storage, Bulk-handlers and Silo Operators</li> <li>✓ Mining operations</li> </ul>
