INVADER MAX

ANT & COCKROACH GRANULAR BAIT

ACTIVE CONSTITUENT: 0.1 g/kg FIPRONIL

GROUP 2B INSECTICIDE

Kills common household ants and cockroaches in domestic, industrial, institutional situations and/or other locations as per the Directions for Use.

Net Contents: **500 g**

DIRECTIONS FOR USE:

Restraints

DO NOT apply to a wet ground surface or to areas that are washed or irrigated, or if rain is likely within 24 hours of application.

DO NOT use with other insecticides or near where they have been applied.

SITUATION	PEST	RATE	CRITICAL COMMENTS
Outdoor perimeter treatment around structures	Ants	1-2.5 g per linear metre	Sprinkle evenly in a 30 to 60 cm band adjacent to the foundations of the building, along driveways, paths, gardens and around trees. For best results apply when ants are most active, usually late afternoon. Follow-up visits should be made to inspect bait placement. Reapply as necessary.
Broadcast application		1 g per m ²	Apply by shaking uniformly over lawns, gardens and other non-crop areas.
Ant mounds		20 g per colony or mound (approx 2 tablespoons)	Sprinkle around each mound (DO NOT use food utensils). For best results do not apply directly to the mound, nor disturb the ants or mound.
Indoor use	Ants and cockroaches	10 g per crack or crevice (approx 1 tablespoon)	DO NOT use in areas accessible to children. Indoor application is limited to inaccessible areas such as cracks and crevices, wall voids and crawl spaces in commercial and residential areas. Apply by shaking into cracks or crevices (DO NOT use food utensils). Remove any loose or excess granules.
		1-2.5 g per m ²	Apply to crawl spaces inaccessible to children and pets.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

GENERAL INSTRUCTIONS:

Protect-us INVADER MAX Ant & Cockroach Granular Bait is suitable for controlling ants and cockroaches in indoor and outdoor situations. The granules contain a special blend of foods plus fipronil insecticide. Worker ants carry the granules back to the nest. Expect to see fewer ants within one week. For indoor use insect bait stations may be used.

APPLICATION

For outdoor broadcast applications use a hand held rotary spreader or similar device which will give uniform distribution. For smaller areas sprinkle uniformly by hand covered with rubber gloves. For indoor applications use a suitable dust or granule applicator.

EQUIPMENT CLEANING

Equipment should be thoroughly cleaned before use and after use granules should be returned to the original sealed labelled container.

COMPATIBILITY

DO NOT mix with any other insecticide, fertilizer or product of any type.

Insecticide Resistance Warning

GROUP 2B INSECTICIDE

For insecticide resistance management Protect-us INVADER MAX Ant & Cockroach Granular Bait is a Group 2B insecticide. Some naturally-occurring insect biotypes resistant to Protect-us INVADER MAX Ant & Cockroach Granular Bait and other Group 2B insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if Protect-us INVADER MAX Ant & Cockroach Granular Bait or other Group 2B insecticides are used repeatedly. The effectiveness of Protect-us INVADER MAX Ant & Cockroach Granular Bait on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, Protect-us Australia Pty Ltd accepts no liability for any losses that may result from the failure of Protect-us INVADER MAX Ant & Cockroach Granular Bait to control resistant insects. Protect-us INVADER MAX Ant & Cockroach Granular Bait may be subject to specific resistance management strategies. For further information contact your Protect-us Australia Pty Ltd representative or local agricultural department agronomist.

PRECAUTION

Not to be used in areas accessible to children.

PROTECTION OF LIVESTOCK, WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

This product is highly toxic to fish and aquatic invertebrates. DO NOT contaminate ponds, waterways or drains with the product or use containers. The product may be applied only within the areas specified on the label. DO NOT apply in high conservation areas such as National State parks and nature reserves. DO NOT place baits in locations which are accessible to domestic animals, livestock or birds. If product is spilt collect or spread granules to discourage eating.

STORAGE AND DISPOSAL

Keep out of reach of children. Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight. Triple-rinse containers before disposal. Dispose of rinsate or any undiluted chemical according to state/territory legislative requirements. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

SAFETY DIRECTIONS

Will irritate the eyes. Avoid contact with eyes. Wash hands after use. If dispensing by hand wear rubber gloves.

FIRST AID

If poisoning occurs, contact a Doctor or Poisons Information Centre. Phone: Australia 131126.
