Protect-us[™]
Mineral
SNAIL AND SLUG KILLER
With Elemental Iron

Protect-us Mineral SNAIL AND SLUG KILLER is a unique patented low hazard formulation that is highly effective in the control of snails and slugs. When the snails or slugs consume Protect-us, they typically lose their appetite and crawl off to seek shelter and protection where they die. Protect-us protects all plants by effectively killing snails and slugs. Use around seedlings, potted plants, vegetables, crop plants, perennials and any other plants affected by snails or slugs.

HOW TO USE:

DO NOT HEAP PELLETS. Scatter pellets on the soil around or near the plants to be protected. Apply bait evenly at approximately **5 g (1 level teaspoon) per square metre or 9 to 10 pellets per 20 cm pot**. Reapply as the bait is consumed or at least every 2 weeks while slugs and/or snails continue to be a problem, or following heavy watering or periods of heavy rain.

All likely areas of infestation should be treated, especially the perimeter of vegetable and flower gardens, because these pests move into planted areas from surrounding daytime refuges. Evening is the best time to apply the bait as slugs and snails travel and feed mostly at night or in the early morning.

Vegetables, flowers and berry fruits

Scatter the bait around the perimeter of the plot and also on the soil around or near the plants.

Ornamental shrubs and seedling fruit and citrus trees

Scatter the bait in a 15 cm diameter circular band around the base of the plants and also around the perimeter of the plot.

Established fruit and citrus trees

Scatter the bait around the base of the trees to intercept snails and slugs travelling to the trunks.

**NOT TO BE USED FOR ANY PURPOSE,

CAUTION

Store in original container. Lock in a safe place preventing access of children, animals, poultry or ducks. Keep away from domestic pets. Keep away from dogs. Dogs may find this bait attractive. If domestic pets eat Protect-us Mineral Snail and Slug Killer contact your veterinarian immediately, as the consumption of large quantities may be toxic. The active ingredient in this product is elemental iron. This product DOES NOT contain metaldehyde or methiocarb. DO NOT allow container or product to get into drains, sewers, streams or ponds.

STORAGE AND DISPOSAL

Keep out of reach of children and pets. Store in the closed, original container in a cool, dry place out of the reach of children. DO NOT store in direct sunlight. Dispose of empty container by wrapping in paper, placing in plastic bag and putting in garbage.

SAFETY DIRECTIONS

May irritate the eyes. Avoid contact with the eyes. If product in eyes, wash it out immediately with water. Wash hands after use.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26; New Zealand 0800 764 766.

NOTICE

Protect-us Australia Pty Ltd warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions for use under normal conditions of use. No warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of the product contrary to label instructions or under off-label permits not endorsed by Protect-us Australia Pty Ltd, or under abnormal conditions.
